LETTERS TO THE EDITOR:
Drayton Valley,
Alberta.

Dear Sir:
We are fortunate in having such a nice hospital in Drayton Valley to go to when ill.
However, quite often we don't learn of someone's illness until they are out and home again.

Would it therefore be possible for you to print the names of the patients admitted each week so their friends can visit them?

I'm sure this service would be appreciated by many.

Yours truly,
(name on file)

Vol. 4 No. 30 September 3, 1959 A. Playford, Publisher Box 120, Drayton Valley, Alta.

School Opens With Large Enrollment

In the picture above is seen the staff of the Drayton Valley Junior and Senior High Schools. Front row, left to right: Mrs. Beattie, Miss Kirkpatrick, Miss Holmes, Mrs. Moore. Second row, left to right: Mr. Murray, Mr. Brown, Mr. Blonke, Mr. Zymbalik. Back row, left to right: Dr. V. Kupchenko, School Principal Mr. T. McManus and Mr. O. Kupchenko.

The staff of the Elementary School comprises some 20 teacher and Principal Mr. John Gray, Vice Principal Mr. Kenneth McKay and School Secretary, Mrs. Gray. Mr. and Mrs. Hopla are school janitors again this year. Enrollment for the Elementary school is about 600, with over 300 enrollment for the High schools. It is expected that before the term ends enrollment in the Drayton Valley school will exceed 1,000 pupils.

In the lower right hand picture is shown the staff of the Elementary School. They are: left to right (front row): Mrs. A. Kupchenko, grade 2; Mrs. E. Levinish, grade 4; Miss B. Ringby, grade 1; Mrs. E. Koehrich, grade 4; Miss J. Lemieux, grade 5; Miss R. Nowoud; Second row, left to right: Miss V. Kos, grade 6; Mrs. L. Now, grade 6; Mrs. S. Eastley, grade 1; Miss B. Gittens, grade 1; Miss I. Nowoud, grade 3; Miss J. Williams, grade 2; Miss P. Vandermark, grade 2; Mrs. Irene Hopla, janitor. Back row, left to right: Mr. F. Hopla, janitor; Mrs. M. Twissell, grade 1; Mrs. Gray, school secretary; Mrs. V. Martin, grade 4; Mrs. J. Greshchuk, Mr. J. B. Gray, School Principal; Mrs. V. Beauregard, grade 5; Mrs. L. Mayhew, grade 3; and Mr. K. McKay, grade 5 and vice principal.

Principal McManus would like to hear from any former high school teacher with the proper qualifications who would be interested in either part time or full time teaching position on the staff.

BUILDING PERMITS SHOW GROWTH

Drayton Valley's building record continued to climb as permits were taken for some \$363,000. In building permits since the last listing, to bring the total for 1959 to the sum of \$1,157,350.

District Personalities

Theodore H. Brooks M.D.
Drayton Valley Physician

Born in Wolverhampton, England, the son of Dr. J. P. Brooks and the grandson of John Churchill, the well known Medical Publisher, London, attended school at Bedford and trained at The London Hospital & London University. After qualifying he held the following appointments: House Physician & Surgeon, Miltney Hospital, London. House Surgeon Obstetrical, Dept. Addenbrooke's Hospital, House Physician, The Freefield Chest Hospital.

While practising in Yellowknife early in 1954, Mobil Oil of Canada asked if he would come to Drayton Valley as there was no medical help in this new Oilfield, they had discovered, and the company was highly concerned with the seriousness of the accidents, etc., on the rigs. Dr. Brooks had the grueling task of attending, through every type of weather, roads and no roads, serious casualties, using his own Station wagon as an Ambulance (until the Drayton Valley Ambulance came a year later) which on occasions had to be pulled through with a "cat", giving treatment en route to Edmonton on many occasions he flew out with the injured.

During the Second World War, he was Medical Officer to the Casualty Station in the well known "bomb alley" near The Ford Works, Dagenham, London, which Station served a population of 15,000 and was in constant use day and night as well as having a large industrial practice to serve at the same time. During these years his wife was in charge of The Women's Voluntary Services for the area, which work they carried on until the end of the war.

Then, while practicing in partnership with Dr. Golden of Eastleigh & Chandeliers Dr. Brook, Thompson, England, Dr. Brooks

in 1954, Dr. Brooks was appointed Coroner to this large area and in 1955 Medical Officer to Mobil Oil of Canada and other companies. Dr. Brooks' speciality is Anaesthesia and he recently attended Post-Graduate Courses at Vancouver and Saskatoon.

Easyford News

BY: BOB O'CAR.

Seven beginners from this district took the bus for Drayton Valley on September 1. They are: Roger Vowls, Leo Ocar, Roger Hutchinson, Wayne Farley, Barry Ocar, Blanche Hordley and Shirley Henkel. Johnny Hutchinson of Kingman will be staying with Mrs. M. Hutchinson and attending High School here this term. Nolleford was visiting the Hutchinsons on the week end. Son, Terry returned to Nolleford with them for the school term. He had been working in the oil field during the holidays.

We weather has delayed many activities this summer. Several drilling rigs are idle because they can't move. Harvest is late. The Easyford bridge is only 2/3 completed. The road building program is far behind schedule. Work is now going ahead on bridge approaches and on roads to Rocky Rapids. One road North from the Post Office and East past the Coward farm is finished except for gravel. It will be a school bus road when completed. Mr. and Mrs. Joe Vowls of Leduc were home for the week end. On Sunday afternoon many friends surprised Shirley, a recent bride, with a bridal shower party. She received many beautiful and useful gifts.

Work has been abandoned on a proposed oil well for Cities Service Petroleum Corporation on the Gordon McConnell farm. Surface casing for this well was cemented 14 times and still did not hold. Anybody in the market for two acres of solid pavement?

Boxing News

Pembina Boxing Association have set up temporarily in the curling rink. They have had three invitations to come to Edmonton with some of their boys in September. Also the Edmonton club are holding a road to the Gardens for October and would like some of our boys to take part.

If any boys in Drayton Valley and district are interested in boxing, please drop into the curling rink any night between 7:00 and 7:30 p.m. and we'll build those muscles on you that you've always wanted.

Four Pembina Boxing Association boys will go from here on the night of Tuesday, September 8, to fight in the Alberta Gym. in Edmonton.

The leather-punches you go in to take part in the Edmonton fracas will be: Johnnie Berg, 163 lbs., light middleweight; Rufus Combs, 122 lbs., lightweight; Marvin Combs, 80 lbs., Junior weight and Gary Mastru, 90 lbs., Junior weight. Trainers Gordon Cross and Don Compton will take the boys in to Edmonton for the fight card. Folks from this area are

SEPTEMBER, 1959 YOUR PHARMACY Monthly News

A Message From "Your Pharmacist"

PLEASE KEEP PLASTIC FILM FROM CHILDREN

Plastic film is an excellent product to protect recently laundered blankets and clothing. It can be a most dangerous hazard to infants and children.

PLASTIC FILM HAS CAUSED DEATHS.

Infants and children playing with this thin, adhesive film can block their nose and mouth so that breathing becomes impossible. Using plastic film as a mattress cover for baby's crib or play-pen invites trouble.

PLASTIC FILM IS A DANGEROUS LAYTHING

Most children like to pull these film bags over their head while playing their imaginative games. When static charges cause a film bag to cling to the face, asphyxiation results.

PLEASE DESTROY SURPLUS PLASTIC FILM.

When it has served its original purpose, dispose of it. Never permit children to play with pills, medicines and dangerous household articles, including plastic film.

"Time To Think"

This second article in the series by local church leaders is contributed by the Rev. Albin Wright of the Drayton Valley United Church.

How many times during the next few months will you repeat these words? "I haven't time," or "I'm just too busy." Many of us allow our lives to become cluttered with trivial things that we have no time available for those activities which should have priority.

A Senator was asked by a newspaper reporter what he thought about a certain cold war issue. The Senator replied gruffly, "I haven't time to think, I have to make a speech." But let us not be too critical of the Senator, how often do we speak without thinking? How much injury and harm have we caused friends and loved ones by speaking without thinking? Thinking is an activity that we must do for ourselves. There is no satisfaction to be gained by letting someone else do your thinking for you. If you are to achieve any measure of self respect as a human being you have no alternative than to learn the art of thinking.

The President of the United States announced recently that he intends to take steps to give cabinet ministers and other high government officials time to think. This may prove to be one of the most important measures enacted during the President's term of office. It is to be hoped that other government leaders will follow this lead.

The human brain is undoubtedly one of the most valuable and precious gifts that God has given to man. We might say that the brain is the key that God has given us enabling us to unlock the mysteries of life. It is not a key that is allowed in the majority of cases to go away as it is left untouched and unused upon the human shelf?

Thinking is hard work, it requires concentration and conscious effort and it requires time. I would conclude with these thought provoking words written by George Bernard Shaw, "Few people think more than two or three times a year. I have made an international reputation by thinking once or twice a week."

Witnesses Convene

Heading homeward from Calgary after four days of extensive religious training are Jehovah's Witnesses from eight provinces and nine of the United States. The Stampede Corral has served them as a gigantic Kingdom Hall from Thursday, Aug. 27 to Aug. 30.

An audience of 5,227 were present to hear Mr. F. W. Franz of New York deliver the key discourse, "When God Speaks Peace To All Nations" Sunday afternoon. Developing the theme of his talk, Mr. Franz stated: "There is no voice on earth today to command peace to all the nations. The nations on earth are trying to establish peace by every means except the means by which God has foretold and has provided."

Confidently Mr. Franz said: "He (God) has provided His Son from heaven and said that the government of His New World will rest on His Son's shoulders and one of his titles will be 'The Prince of Peace'."

Throughout the four days speakers stressed the theme, "Awake Ministers" pointing out the responsibility of each witness to publicly declare his faith. Developing this theme were speakers from all parts of Canada and from the

ABUNDANT LIFE

by ORAL ROBERTS

DON'T BE A QUITTER

John and Jan were voting for the new hardware store at the local hardware store.

The store's owner knew both boys well, but he could not make up his mind which one to hire.

"Each of you fellows will have to try out for a day," he told them. "I'll figure out which one will work permanently."

He told them to go up into the loft at the rear of the hardware store. "Start sorting out all the nuts and bolts, screws and nails in that big hopper up there," he said, "and be sure to put each piece in its proper bin."

So both boys climbed the ladder to the store loft and began working.

After about two hours John came down.

"Have you finished already, John?" asked the owner.

"Well, yes and no," John replied. "I'm finished... but the job isn't."

Then John tried to explain that the job given to him was too time consuming. "It is going to take me too long to sort out all that mess of stuff," John said.

Needless to say, John was sent on his merry way by the hardware store owner.

The rest of the morning passed. The lunch hour went by. About 3 o'clock in the afternoon the owner decided he had better check on Jim.

He has been up in that loft a long time, he thought. I haven't heard a peep out of him. Maybe he slipped out during the lunch hour and has given up, too!

So the owner climbed the ladder to the loft. There he found Jim, absorbed in his work, patiently and methodically piling up over the huge pile of hardware putting each proper piece into its proper place.

"How're you coming on, Jim?" asked the store owner.

"Just fine," Jim replied. "My progress is slow, but I'm determined to get the job done, no matter how long it takes."

"You've passed the test with flying colors, Jim," said the owner. "Come on down and let that store boss know you're just land yourself a good job."

"Which one of these boys fits your character best—John or Jim?"

"Can you pass the test that life has given you?"

It is easy to quit when the going gets rough or when we feel we're not progressing as fast as we ought.

But don't be a quitter like John!

If you have some particular problem that you are facing in life, don't give up. Ask God to help you with that problem.

Silver Dollars in Cafe

In Lil McCordia's "Sunset Grill" on the eastern edge of Edson, on the main highway, is a back-bar covered with a large array of silver dollars. Each silver "carnival" has the name of the person or persons who paid a sawbuck to put it there.

What do you have to do to get your name up on the back-bar underneath a silver dollar? Go to the Sunset Grill and pay Mrs. McCordia a dollar. Many people from this district undoubtedly know Lil McCordia, as she had the Twigg Inn Restaurant for some time.

GREEN ACRES

GRAIN STORAGE

Anyone who is short of space for storing the crop that is just being threshed might be interested in some methods that can be used for emergency storage. Some of these are rather obvious but there are several which can be adapted to temporarily carry the overflow. Temporary wooden bins, known as "fencing" with paper lining, woven wire with lining, baled hay or straw, are a few of the methods which have been used successfully in past years. Full instructions on building such storage units are given in a pamphlet called "Emergency Grain Storage," and if this information would be of assistance, be sure to drop into the office or write for a copy of the booklet.

If you are contemplating the building of new, permanent grain storage facilities, the following figures will be of interest. These are the costs of materials only per bushel of grain storage capacity.

Circular plywood granary, 86 to 106 per bushel. Rectangular building over 4,000 bushels capacity with concrete floor and arch or rigid frame construction, 130 to 150 per bushel. The ordinary rectangular frame granary, about 85 per bushel. Concrete metal granary, 90 to 85 per bushel.

Of course, this picture would be changed if labour costs of construction are included. The metal granaries, for instance, are largely complete and little labour is required in preparing them for use.

If a concrete floor is to be used, such as would be the case in large rectangular granaries, this should be waterproofed. This is done by pouring the surface of the gravel by means of mud which does not need to be worked in to the gravel but only for levelling so that the moisture barrier will not break. On top of this should be poured your moisture barrier which should be of Polyethylene or six mil thickness. The concrete is poured on top of this.

It's also a good idea to check over the existing storage on the farm to see that it is adequate for storage this year. Loose roofs, doors, windows, and other places should be repaired to exclude rain and snow. Badly cracked walls can easily be fixed with plywood or heavy waterproof building paper.

Insulation for stored grain is important if insect damage is to be avoided. Before the grain is stored, the walls and floors should be thoroughly cleaned. Then sprinkle a little hydrated lime over the floor and sweep it to fill all the cracks. Particularly if the grain in the building was infested last year, the floors and walls of the granary should be sprayed with a 5% Pyrethrum solution, and the surface allowed to dry before filling the granary. And of course old infested grain must never be covered with new grain, as this will invariably lead to a complete infestation of all grain.

Pony League Raffle Winner

Winner of the Oubard Monr raffled by the Pony League on Friday night (Aug. 25) at the Casino Theatre was T. G. Millenbacher.

The lady was having some difficulty trying to board a bus with a horse.

"Are you out of your mind, lady?" replied the conductor.

"I can't help it," replied the woman, "the bus is too small."

HERE & THERE

In Drayton Valley in the official capacity this week, was Bill Work of the Mobil Oil Calgary office. Bill has himself as "Company Land Man", whatever that means.

Mr. and Mrs. Gordon Bowman left this week for their new home in Calgary. Gordon will be in the Calgary office now.

Bill West, one of the "Mobil men," in the first "Discovery" days in Drayton Valley, was a visitor to Drayton Valley recently. Bill is now in Libya, (Tripoli) with Mrs. Bill and their three children, who now speak Italian fluently.

Before returning to Canada for a couple of months vacation the "Two Drayton Valley High School Graduates, Kathleen Glen of Rocky Rapids and Barbara Potts, of Drayton Valley, who attended U. of A. last year, are planning to go into yams tasting this year.

Frank and Helen Harrison recently chose as their adopted son, a fine baby boy, whom they named Brian Frank. Frank is the Public Works Superintendent for the Town of Drayton Valley.

"Have you ever seen a company of women allent?"

"Yes," one somebody asked who was the oldest.

School Teacher Visits Europe

Miss Joan Williams, daughter of Mr. and Mrs. Lewis Williams of Drayton Valley, returned from a two month trip of Europe, which Joan says was very enjoyable.

Accompanying Miss Williams was a girl friend, Miss Marlene Meyer of Wandering River, Alberta. The two girls from Montreal, on the Sarnia, to Le Havre, France, and toward France first, then took to Italy and then Switzerland. On the continent they traveled by both bus and train.

From Switzerland they went to Germany, where they sailed up the historic Rhine River in a steamer. From Germany they crossed into Holland, and then to Belgium.

From Belgium the two Canadian women crossed the British Channel, landing at Dover, some several hundred years after Caesar's legions. From July England they went north to Bony Scotland, finally taking the steamship Calista from Greenock, on the Scottish west coast back to Montreal.

Joan says she enjoyed Switzerland and Scotland the most. Maybe it's the mountains inspiring in her. She will teach in Drayton Valley School this year again.

"What is capital punishment?" "Taxes."

Food for thought ...

By: Danita Boling.

All things being equal, by the time you read this we should be ready to leave or perhaps will have already snatched off for a three or four day trip to Banff, Lake Louise and home by way of Jasper, if the road between Banff and Jasper is open and passable. It has been closed at various times this summer because of heavy rains which made it impossible to travel over the portion that is still under construction. If we have to miss that part of our plan, as we think that in the 180 miles between Banff and Jasper, one can see some of the most scenic spots in the world. Oh well, the Banff and Lake Louise area is very beautiful too, and it won't hurt us to spend our extra days there and catch up on some needed rest. We expect to see a lot of people doing the same thing that we are—out for the last few days of summer before settling down to the Fall and Winter routine. For the past week our village has seen familiar faces that have been absent all summer. To many families are lucky enough to own or to be able to rent a cottage at the nearby lakes and spend their summer there. Everyone is looking forward and ready to tackle the summer ahead except a few of us stragglers who still have our annual holidays ahead of us. We must be getting old as we are dreading the thought of a fall in October, which is when we are scheduled to go. The very thought of packing suit cases with enough clothes to last us a month gives me fits. We hope to find the "fourteen of Yorkville" when we are gone so we will be able to keep up the pace that the rest of you set in the winter months. It will be November, or close to it, when our vacation is over so the time we return everyone will be talking of Christmas! In fact I have already been approached to order Christmas cards! I may be old fashioned but somehow August and September seems too early to me to be thinking about Christmas Shopping. I'll do just as I've always done in the past and that will be to wait until the last minute, then scribble around to a panic and just get things done by the skin of my teeth. I like to do it that way and you have never lived if you haven't shopped on Christmas Eve! Imagine shopping for Christmas Eve August or September! There's nothing like a last minute rush when the spirit of "giving" overtakes me and I don't happen to get that feeling in August, September or October. I may begin to use some salad oil too, as all Olive Oil can make the sauce too rich. Add salt, coarse ground pepper, a teaspoon of dry mustard and a dash or two of Worcestershire sauce. Shake the mixture in a jar then pour it over the beans and onions and stir it over three times. Chill before serving and drain off any extra liquid. Leftovers from this are especially nice used in a tomatoe green salad.

"Nature has given us two ears but only one mouth, why?"

Dizzeil

Mr. Frank Murray, of Edmonton, visited his friends, the Domingtons, at Victor, on Friday, this week. Mr. Murray is eighty five years young but isn't letting his age creep his style. For many years a successful building contractor, Mr. Murray retired some years ago but soon found himself bored by inactivity. His present interest is the perfecting of several inventions that have claimed his attention for some time and he has had some very attractive offers for his patents.

Miss Barbara Potts has just returned from a visit with her sister and brother-in-law, Mr. and Mrs. David Friesen, of Dawson Creek, B.C.

Mr. and Mrs. Ray Clemons have gone to Penticton, B.C. for a two weeks visit with some of Ray's relatives.

Mr. Sam Wallace is in Drayton Valley Hospital because of complications following a bad case of flu.

Bob Trinchler paid his grandparents, Mr. and Mrs. Henry Domingos, a flying visit last week. Bob had been in Hagenberg, B.C. and had a chance to come to Alberta with some neighbours who were making the trip.

Danny MacDonald has sold off his stock and is away to the North West Territories on a three month prospecting trip.

Mr. William Woltschlag is enjoying a holiday with relatives in Kansas.

Mr. Glen and her son, Mr. William Glen, are receiving congratulations on the splendid showing made by their grade nine pupils in the June examinations.

Once in awhile we like to have something a bit different for the buffet table when we are having guests in for the evening meal. The following can be prepared in 3 or 4 days in advance, is even better when you do, and is usually a popular dish to serve.

Pickled Green String Beans... One medium sized white onion, chopped, grated or shredded. (One Onion to each can of string beans). Cover the string beans and onions with the following pickling sauce and let set in the fridge for 24 hours, preferably 3 or 4 days. About equal parts of oil and vinegar. If you like a real sharp taste then add more vinegar and if you are using only oil it is best to use some salad oil too, as all Olive Oil can make the sauce too rich. Add salt, coarse ground pepper, a teaspoon of dry mustard and a dash or two of Worcestershire sauce. Shake the mixture in a jar then pour it over the beans and onions and stir it over three times. Chill before serving and drain off any extra liquid. Leftovers from this are especially nice used in a tomatoe green salad.

Mr. Sam Wallace is in Drayton Valley Hospital because of complications following a bad case of flu.

Bob Trinchler paid his grandparents, Mr. and Mrs. Henry Domingos, a flying visit last week. Bob had been in Hagenberg, B.C. and had a chance to come to Alberta with some neighbours who were making the trip.

Danny MacDonald has sold off his stock and is away to the North West Territories on a three month prospecting trip.

Mr. William Woltschlag is enjoying a holiday with relatives in Kansas.

Mr. Glen and her son, Mr. William Glen, are receiving congratulations on the splendid showing made by their grade nine pupils in the June examinations.

Once in awhile we like to have something a bit different for the buffet table when we are having guests in for the evening meal. The following can be prepared in 3 or 4 days in advance, is even better when you do, and is usually a popular dish to serve.

Pickled Green String Beans... One medium sized white onion, chopped, grated or shredded. (One Onion to each can of string beans). Cover the string beans and onions with the following pickling sauce and let set in the fridge for 24 hours, preferably 3 or 4 days. About equal parts of oil and vinegar. If you like a real sharp taste then add more vinegar and if you are using only oil it is best to use some salad oil too, as all Olive Oil can make the sauce too rich. Add salt, coarse ground pepper, a teaspoon of dry mustard and a dash or two of Worcestershire sauce. Shake the mixture in a jar then pour it over the beans and onions and stir it over three times. Chill before serving and drain off any extra liquid. Leftovers from this are especially nice used in a tomatoe green salad.

"Nature has given us two ears but only one mouth, why?"

Mr. Frank Murray, of Edmonton, visited his friends, the Domingtons, at Victor, on Friday, this week. Mr. Murray is eighty five years young but isn't letting his age creep his style. For many years a successful building contractor, Mr. Murray retired some years ago but soon found himself bored by inactivity. His present interest is the perfecting of several inventions that have claimed his attention for some time and he has had some very attractive offers for his patents.

Miss Barbara Potts has just returned from a visit with her sister and brother-in-law, Mr. and Mrs. David Friesen, of Dawson Creek, B.C.

Mr. and Mrs. Ray Clemons have gone to Penticton, B.C. for a two weeks visit with some of Ray's relatives.

Mr. Sam Wallace is in Drayton Valley Hospital because of complications following a bad case of flu.

Bob Trinchler paid his grandparents, Mr. and Mrs. Henry Domingos, a flying visit last week. Bob had been in Hagenberg, B.C. and had a chance to come to Alberta with some neighbours who were making the trip.

Danny MacDonald has sold off his stock and is away to the North West Territories on a three month prospecting trip.

Mr. William Woltschlag is enjoying a holiday with relatives in Kansas.

Sports

BY: Gene Rayley

Well, it looks as if Old Man Weather is on to get everyone. I don't know what this world is doing on the wrong side of him but it certainly must have been decided.

If anything had preceded in schedule last week, I would be discussing the final series in the Pembina-Fastball League. As it is the final final has just been completed at press-time. To no one's great surprise Mobil Oil finally disposed of Gold although it took the full three games.

This third game was the most exciting performance put on by the Gold team all year. They were never out of the game, even with a four run pitched staring at them. Art Kloss pitched a good game for Gold but the Mobil hitting was just a wee bit superior.

The final series, a best-of-five 11th, got underway Tuesday night with the second game on either Wednesday or Thursday. The series then resumes on September 6, with games on Tuesday, Wednesday and Thursday, if necessary. This reporter will be on vacation for the next two weeks, so if you want to get the Fastball news, I would suggest you tune out at the ball diamond. Remember all games are set for 5:30 in order to get the games completed before dark and while the weather is still warm outside.

Turning to winter sports for awhile, Ron Gervais of the Bowling Alley, has informed me that the Bowling League will get under way on September 14. The league will operate as it did last year. There will be both mixed and men's bowling in the evening. If enough ladies are interested, an afternoon league will also operate to take care of them.

Only one change in the number of bowlers required will be made this season. The men's league will operate with only 3 bowlers to a team. It seems that one ally just can't accommodate 5 teams of four players. The mixed league will require at least 2 ladies on each team.

Any one interested in bowling this year is asked to contact Rod Gervais at the Bowldrome. Phone number 338 and leave the name of his team, or if he is not on a team, to leave his name with Rod for placement on a team. All entries should be made by Saturday the 10th of September.

Provision will be made this year for regular league bowling at 5:00 o'clock, for those who cannot make it for 7:00 or 9:00. More information on the 5:00 o'clock league can be obtained by calling the Bowling Alley.

Just one more thing before we close: An organizational meeting will be held at the Bowldrome at 8:00 pm on Thursday, Sept. 10. This meeting is a must for all bowlers since it will lay out extensive plans for the coming season. We'll see you all at 3 o'clock.

HIGHWAYS

Gordon E. Taylor, Minister of Highways for the Government of Alberta, reported today that 44 percent of the mileage of the grading contracts that have been let has been completed. This percentage represents 197 1/2 miles. Compared with progress made in 1958 on grading contracts, this shows a serious task, as at this time last year 64% of the work had been done.

The picture with respect to base course contracts and plant mix contracts is much the same. Some 46 percent of the base course work has been completed (121 miles) and 46 percent of the plant mix contracts has been done (97 1/2 miles). Last year the comparable figures were 67 percent and 64 percent respectively.

The seal coat work is in almost the same state of completion this year as last. 71 percent or 136 miles has been completed as compared to 59 percent at this time last year.

"Only a complete change in the weather with loss of sunshine and a long open fall starting immediately will permit us to complete our highway program this season," Mr. Taylor commented.

Highway contracts and trucks are feeling the effects of the continuous wet weather. Trucks are standing idle while contractors are being put to increased costs in drying out the same material time and time again.

If first you don't succeed, you are running about average.

When: "Your husband just slid under the table."

Marg: "That wasn't my husband. That's him coming in the door!"

Massey-Ferguson Sales

World-wide sales of Massey-Ferguson during the first nine months of fiscal 1959 represented the highest volume of any company in the world of any corresponding period in the Company's history. It was announced today in San Francisco by John H. Shimer, Vice-President, Marketing.

As July 31, 1959, the three-quarter mark of the current sales year, the Company showed an increase of 94% million (or more than 12 percent) over the comparable period of 1958. Figures for 1958 include sales of \$15 million by Perkins diesel engine company of Peterborough, England from the date of its acquisition in 1959. Total sales reached \$376 million as against the \$334 million figure of a year ago.

At a news conference in San Francisco, where the Company's sales in the United States and Canadian domestic markets, which were up 25 percent and 45 percent respectively over 1958. North American sales during the nine-month period rose by 28 percent over last year's figure to a total of \$187 million compared with the 1958 mark of \$130 million, reflecting deeper penetration in strategic market areas.

The Company's regular quarterly financial report for the third quarter will be available about mid-September.

Total value of Massey-Ferguson trade with Yugoslavia, including that of their associate company

P. Perkins Ltd. of Peterborough, England, is in excess of \$40 million. This represents contracts, combines and implements sold, and under various agreements Massey-Ferguson negotiated with two companies in Yugoslavia in 1958 for 10 years in the case of tractor and 7 years for implements and combines. Orders to Massey-Ferguson have therefore greatly exceeded the minimum purchase commitment of \$10 million.

In Belgium last Saturday, Albert A. Thompson, President of Massey-Ferguson Limited, presented the 10,000 tractor sent to Yugoslavia to Indusirija Traktora

1. Massey, speaking to an audience of members of the diplomatic corps, representatives of 1945, materials supplies and a large group of workers, Mr. Thompson paid tribute to the "Yugoslav spirit of integrity of purpose which has been present in both sides from the beginning."

This presentation tractor, a Massey-Ferguson 35, had the place of honour in an exhibit at the Belgrade Fair which opened on Sunday, August 22nd, 1959.

DON'T FORGET OUR JACKPOT BINGO

Every Wed. night in the Wile Community Hall at 8:00 p.m. Sponsored by the R.P.O.E.

"NO JOB IS TOO BIG OR TOO SMALL FOR US."

The value of a smile

A smile costs nothing but gives much. It enriches those who receive it without making poorer those who give it. It takes but a moment but the memory of it sometimes lasts forever.

None is so rich or mighty that he can get along without it, and none is poor but that he can be made rich by it.

A smile creates happiness in the home, fosters goodwill in business, and is the cornerstone of friendship.

It brings rest to the weary, cheer to the discouraged and sunshine to the sad. It is Nature's best antidote for trouble.

A smile is something of no value to anyone until it is given away. It is then it has its greatest value.

Some people are too tired to give a smile. Give them one of ours, as mine never a smile as bright as the one he has no more to give.

Mr. Clara Cameron, who formerly lived in the Eastford district, owning the farm where the Lookout Tower, south of Eastford, is now located, is visiting with the Lewis Williams family. Mrs. Cameron is now living in Cast, Alberta. She started out well by re-subscribing to the PNA.

Reports tell that Evelyn Kynock, who is the Drayton Valley president of the Robin Lake Club, was baby-sitting recently, along

with her young friend, Callene Brown, when Robin Lake (in person) called her from Jasper Park where he was vacationing with his parents from Sunny Hawaii. Reports further state that both Evelyn and Callene were so flustered that they couldn't even think of anything to say to young Robin. They had a hard time convincing folks that he called, too.

Remains from vacationing in Top of the World, the Governor, and Tom and his family took in the Flathead Lakes in Montana.

Druggist Alf and Mrs. Armstrong and family returned from visiting relatives in Ohio and Provost.

Miss Jeanne Prokopak, of Tomahawk, is working in the A. Meier office. She is taking the place of Miss Adeline Jakubusky, who is returning to school.

Debbie Joy Schultz arrived at D. V. Hospital for Manuel and Gladys Schultz of Violet Grove. She has 1 brother and 2 sister.

Twins Born in D. V. Hospital

The Drayton Valley Municipal Hospital saw the first set of twins born Friday, August 28, when a boy and girl were born to Mrs. A. T. Mudy, of Calmar. The boy weighed 8 lbs., 14 1/2 oz., when born and the girl weighed in at 6 lbs., 8 oz.

From the middle of August till the end of the month, eleven babies were born in the local hospital.

Aug. 17-Mrs. Mildred McCune, girl, 8 lbs., 2 oz.
Aug. 18-Mrs. Phyllis Kane, girl, 5 lbs., 15 1/2 oz.
Aug. 20-Mrs. Eileen Bradley, boy, 8 lbs., 9 1/4 oz.
Aug. 20-Mrs. Jean Poppendyke, girl, 6 lbs., 4 1/2 oz.
Aug. 23-Mrs. Marie Stang, girl, 5 lbs., 8 1/2 oz.
Aug. 23-Mrs. Lucille Marshall, boy, 8 lbs., 9 1/2 oz.
(This young lad stood out the boy born to Mrs. Eileen Bradley on Aug. 20 by a mere 1/4 oz., for the Heaviest Baby of the week.)
Aug. 25-Mrs. Ruth Schellier, boy, 8 lbs., even.
On the first day of the new week a baby boy was born to Mrs. Isabel Callison, 7 lbs., 1 oz.
Aug. 23-Mrs. Phyllis Morrill, boy, 8 lbs., 2 oz.
Aug. 26-Mrs. Gladys Schmitt, girl, 5 lbs., 5 1/2 oz.
And, closing out the month, on Aug. 28-the twins born to Mrs. Eileen Mudy.

99 Service Re-opens

Stan Pelek and George Christoferson recently took over the Valley 99 service station in Drayton Valley. The station will now be known as Drayton 99 Service. Stan and George plan on specializing in wheel alignment services. They are installing a new Hunter Line-A-Line wheel aligner. In this type of wheel aligning a light shines from the wheel which is being aligned to the large Line-A-Line board chart and so they can get a perfect register for alignment.

They plan on doing regular service station jobs such as lubrication and tire repairs and so on, as well as the wheel aligning service.

Police Department Reports

Since the first of the year until the end of August, Drayton Valley Police Department has handled some 35 court cases.

This includes cases of careless driving, no drivers licence, etc. As well as these cases there have been other minor offences in which a traffic ticket has been issued and paid without a court case.

Other court cases tried in Magistrates Court in Drayton Valley since the first of the year include 39 under the Liquor By-laws, 39 under the Criminal Code of Canada, and 6 cases under the Juvenile Delinquency Act.

Of the cases under the Juvenile Delinquency Act, 2 were sentenced to indefinite periods in Bowden, 2 were sentenced to 18 months for car theft, 2 were sentenced for 1 year for car theft, 5 were sentenced to 1 year suspended sentences and 1 to a six months suspended sentence.

Under the Alberta Government Liquor Act 68 cases have come up in court. These have covered illegal possession of liquor, minors on licensed premises, intoxication, etc.

600 traffic tickets have been issued for parking violations, speeding, etc. In the period since the first of the year 477 Mobile Homes Licences have been checked and issued.

Total of the fines for the period has amounted to approximately \$4,000.

Now that school has reopened the Police Department is asking the motorists to be particularly careful at school intersections. A

School Patrol is to be set up in the near future. Meanwhile the continued cooperation of all motorists at school intersections and crossings is requested. Motorists are reminded that should they fail to stop at the red light at the school intersection or fail to stop for school children crossing the street or highway, the children may take their licence numbers and report them.

Parents have expressed their appreciation of the school police patrol maintained by Drayton Valley Police Department at the main school intersection during the time school is starting in the morning, at noon hours, and so on. When the School Patrol is formed, part of this duty will be taken over by the members of the School Patrol themselves.

District Personalities

Mr. June Chew
Drayton Valley Hotel Coffee Shop

This week's Personality deals with the genial proprietor of the Drayton Valley Hotel Cafe, June Chew. Mr. Chew has been in Drayton Valley for a little over three years. He came here from Vancouver, where he was also in the restaurant business. He also operated a restaurant in Carleton Place for six years.

Province, China where his father was a farmer and came over to Canada when quite young. In 1920 he returned to China for a year and was married there. His wife and son are still in China, in the British Protectorate of Hong Kong.

June has an unusual sense of humor and is well-liked by all who come into his place of business.

Three Sets of Twins Born in D. V. Hospital Athletic Association

Pictures by Curt's Studio

Three sets of twins were in the Drayton Valley Municipal Hospital at the same time recently, under what is said to be very unusual circumstances, as it is said to be quite unusual, even in the larger hospitals, for there to be as many as three sets of twins in the hospital at the same time.

The first set of twins was born on August 28, to Mr. and Mrs. A. T. Mudy, of Calmar. They were a boy and a girl, and may be seen in the arms of Nurse Mrs. Kay Johnson, on the left side of the picture. They weighed, (boy) 8 lbs. 14 1/2 oz. and (girl) 6 lbs. 5 oz. In the centre are two baby girls, the daughters of Mrs. Ann Karach, of Stony Valley; these two little ladies were born on September 7, and weighed 7 lbs. 8 oz., and 6 lbs. 8 oz. They are held by Nurse Mrs. Laura Androschuk. In the arms of Nurse Miss Doris McKinnon, on the right, may be seen the boy and girl born to Mrs. S. Suchan on September 6th. They weighed 6 lbs. 4 oz. and 6 lbs. 3 oz. Mrs. Suchan lives in Drayton Valley; Mrs. Mudy lives in Calmar.

The Mudy twins are each eligible for a baby spoon from Lloyds Jewelry for the week of August 23 to 29, and for this week, September 5 to 12, when both the other two sets of twins were born, the heaviest pair will be eligible for the spoons; which will be the two girls born to Mrs. Karach, whose combined weight was 13 lbs. and 11 oz., outweighing the twins born to Mrs. Suchan by 1 lb. and 4 oz. Mr. Lloyd says that in over 5 years of conducting the Heaviest Baby contest, (in Valcan, before coming here) he has never before given away four baby spoons at once. (For pictures of the first baby born in Drayton Valley Hospital see page 5.)

Doctor to Locate in Drayton Valley

Dr. and Mrs. Ian Grant Waugh were formerly located at Maricao, on the Coal Branch. Dr. Waugh will practice in Drayton Valley as soon as his office in the Lloyd Bohn in County Durham, England, is ready.

Dr. Waugh attended Oxford and Edinburgh Universities, and qualified for Medical practice in Ontario (continued on page 3)

A new association was recently formed in Drayton Valley, known as the Drayton Valley Athletic Association. Jack Falls has been chosen chairman and Gordon Cross is secretary. Vice chairman is Les Tuckett and Associate secretary is Marley Sitzer. Other officers for the association will be chosen at a later date.

Purpose of the group is to coordinate and supervise all sports activities in Drayton Valley. Three meetings have been held thus far and things are rolling along very favorably. Another meeting is slated for Thursday night, at 8:00 p.m. Sept. 10, in the Curling Rink.

The group will supervise summer-time and winter sports which will include: hockey, basketball, baseball, school cycling, boxing wrestling and gymnastics, baseball and football, badminton, volleyball, track and field, swimming, bowling, skating and tennis.

The group will supervise all intramural seasonal sports activities.

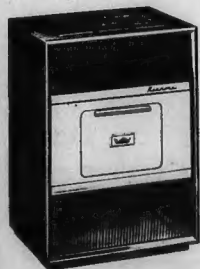

A. M. A. Training Course

The Alberta Motor Association recently announced that another Driver Training Course will be conducted in Drayton Valley, starting after September 17. It will be a two week course. Those interested may contact Chief Constable A. Miles at the Town Police Office.
